The Saskatchewan Health Coalition was established in 1981. We have a broad-based membership representing diverse organizations and individuals.

Our Goal: To advocate and engage the public in promoting a strong and better health care system.

We support a publicly funded health care system that is based on the five principles of the Canada Health Act: Portability, Comprehensiveness, Accessibility, Universality and Publicly Administered.

We support the maintenance of national standards as set out in our Canada Health Act.

We are affiliated with the Canadian Health Coalition.
